Tackling HIV stereotypes: targeting late diagnosis across demographic

Impress Health 2

My role in the research

Psychological support counsellor

Initial involvement

Process and content issues

Emerging issues

⌘ Researchers

- ❑ Process and dynamics - recruiting
- ❑ Practitioners – ? sharing practice – specific needs, tailored interventions
- ❑ Participant issues
- ❑ Distress during process

Emerging issues

⌘ Some participant issues

- ❑ Not related to interview
- ❑ Past testing and impact of diagnosis
- ❑ Patients – pre existing concerns regarding LWHIV
- ❑ Encouraged to speak out with clinic staff
- ❑ One off assessment and onward referral

Process and content issues

Thank you for listening
